

TOO TABOO (MEGA 12 BOOK TABOO BOX SET) By Ivana Cox **Book TOO tabooa** UK!!! I REPEAT DO NOT BUY ITS CORRUPTED LIKE A MOTHER FUCKER!!!! I bought this ebook from Amazon didn't read it straight away but after a couple of days I started to and I must say the first half was really good and hot if your into things all taboo got to between 50 an 60% and all of a sudden I got the feeling that I was reading the same story but just with different names. **TOO taboos meaning** I thought I was going a bit mental or some shit like that so I started back-tracking and yeah I was reading a different story but when it got to the nitty gitty its like this author Ivana Cox copied and pasted a scene from a different story!!!! But wait that's not it I got to the last story I could tolerate (even though I hadn't finished the whole ebook) and AGAIN the same shit this story I was reading started with Lola and Lance but after a page an half it's like his name changed just like that to Jacob which was the same in another two other stories in the collection and I know you can use whatever name you want but when this name is use in the beginning of the collection and with this one scene and then pops up again half way though the story I was reading at 60% the same shit. **Kindle TOO taboo game** yep it was fucking bloody Jacob!!! So in total I counted 4 Jacob's and re-read one scene 5 times and another bit of scene that wasn't nitty gitty 4 times!!!! It only got 2 stars because the first half was good.
