So much things happened in the last chapters ! OMG I'm so supercharged with the power of books theories right now !*inhale deeply*First of all Erza is a bastard and I want him dead. **Perilous ladypharm46** Second shit is about to hit the fan ! Because now we finally saw the BBG apparence (Big Bad Guy) and he is also Mercy stalker ? And he has a link to her past ?THEORY TIME ! Eva Chance did you spring drugs in your books ? Because they are addictive !Merry English Eva and Harlow have done a fantastic job with Perilous Lady the second book in the Crooked Paradise series. **Fiction Perilous lady vols** The Nobles are very different kinda people Wylder is trying to prove himself to his father while recognizing that his father is a jerk to everyone and Ezra the big boss is more controlling devious and ruthless than I could have imagined. **Book Perilous ladysmith** I know he is a mob/gang boss but Ezra is a whole new level of something and worse yet he isn't stupid the man is smart conniving and violent which isn't a good combination for my favorite characters. **Perilous Lady epub file** However it's the sub-issue that is Mercy's little stalker problem which hasn't gone away because Gia has even when people were harassing her or trying to make her leave or trying to bring her down. **Book Perilous lady bird** I was annoyed with Wylder throughout the middle of the book when he was being a jackass but after hearing his story and it doesn't let up from the first page to the last. **Perilous ladytron band** I tend to like a lot more steam in a romance (and I almost don't even want to class this as one since so little time is devoted towards romance) but the story itself is so engaging that I find myself not minding as much. **Book Perilous lady's** English Wow what a great second book! It's a fast paced and action packed read as we continue with Mercy and the guys journey full of danger surprises and twists and turns and a whole lotta steam! It's one hell of a rollercoaster of emotions and darkness and once drawn in you will not want to leave! There's fantastic chemistry between the characters the storyline is dark gritty and so addictive and I loved it! English Revenge is so sweet Just wow, but these new characters? wtf is going on? i am not a fan of cliffhangers and i don't know anyone who is that isn't a psychopath. **Book Perilous ladybug** each one has a different back story and how they all come together, **Perilous ladymooncries** English Recommend: YesSpice: ☐ ☐ Age recommendation: 18-30+ YearsWorld: One Mortal WorldPlot: Book 2 of this series starts off with the MC being kidnapped while out running. **Perilous Lady epubs** Colt takes her to a warehouse and has her tortured by a lackie. **Perilous ladyshelab** She managed to get away and

#2)well this went better than expected.i also am loving these characters. i love when these authors create a good group of guys. i'm all for it. Mercy kills colt and they all get out alive. It picked up exactly where the first book left off. She has a big heart. The conflicts with Ezra and Colt were pretty good. The action writing in this book is very well done. It's engaging and keeps you in your toes. The cliffhanger at the end is very intense. I wonder how that's going to play out. I'm love with the theatrics of this new villain. I want to know his motives too. As Eva Chase she also writes fanasy and paranormal romance. As Eva Chase she also writes fanasy and paranormal romance. They've already butchered my family. I can't let them destroy the streets I called home. Whichever we pick we'd better decide fast. Because my ex isn't pulling any punches. Boy did it deliver.I do hope Mercy develops a bit more. I need more fire and spice from her.Kaige Dude tou just get softer and softer. I need little bit of fire from this one. Hopefully book three holds that for him.Rowan I knew you didnt leave her for no reason. So glad you told her why. I need him to be more mean and ruthless in book 3.Gideon I knew this one had something in the bag. Didn't turn out to be a Dom but close enough. I do hope we get more of this one in book 3. I liked him. The quiet type is always the best type. I would like more killer vibes out of him.Wylder yerp book BF for book 2. I knew it. I like him. Withdrawn but intense. I like my men with a cruel mean streak."There was a wild urgency in his green eyes. "You're mine" he snarled. "Mine." English Mercy is still badass. The guys are wrapped around her finger. Her ex-fiancee is gunning for her. And he orchestrated the Claws' massacre.END OF THEORYWe'll see if I was right or not. My bet is on Axel. But we'll see. I can't wait to see them coming together. Even if they aren't the strongest couple at the moment. For me the wining crown is going to Kaige and Gideon. The relationships all improved in this book. The men also all communicated well. It's the set up for a very healthy relationship dynamic. And that ending?! Just whoa
