

The Magic Faraway Tree (The Faraway Tree, #2) By Enid Blyton **The magic faraway tree audiobook** Although it was interesting to see the addition of Google buns to the weird food list (centred on pop cakes and toffee shocks) - was this the first popular appearance of the word 'Google'? I have no idea. **The magic faraway tree by enid blyton pdf** Where have our friends vanished to meantime? It's worth noting that EB's imagination delivers a rather harsh world where the highs are pretty high (whatever you want) and the lows without mercy (lose your temper in the land of tempers and you're stuck there FOREVER!). **The Magic Faraway Tree epub torrent** Frequently only one of us was available at a time to put Fin to bed - and I found it hard to read him a story while also giving him his bottle and the lovely routine slipped away (and I missed it). **Magic faraway tree books in order** Then my wife changed work and we had more opportunity for bedtime story again - but now Fin was older and didn't want to lay back to hear the story he wanted picture books he could look at with me. **The Magic Faraway Tree epub reader** Often what so appealed to our younger selves we later find riddled with plot holes become distanced from the young protagonists or find them just generally unsuited for an adult readership. **Fantasy The Magic Faraway tree book** This series is just an absolute joy to behold! Of course there is an element of predictability to the events and the safety of the characters is continually ensured but the whimsical beauty of the setting the hilarious anecdotes from the characters the soaring feats of bravery the fantastically odd beings and the wonderful (and sometimes not so) lands visited all made this an utterly charming read and escape from reality for my my pre-teen my teenage and my (now) adult self. **The magic faraway tree original illustrations** Beth mentions her doll but Frannie's wings aren't mentioned and neither is Joe's pony -- the pony that somehow climbed down the ladder of the Faraway Tree and then went down the slippery-slip something I still can't get my head around. **The magic faraway tree total environment** What happened to the pony? A little confusingly in this book the children's mother appears to know about the tree with magical lands above it and is neither surprised concerned or shows any interest in going along to see for herself. **The magic faraway tree tv series** She recovers quickly leaving half a bottle of this magical medicine which she then puts aside incase they might ever need it -- why not send it/take it to her sister? It makes even less sense than a pony using a slide. **The magic faraway tree total environment** [Rant] Now my MAJOR COMPLAINT! **stamps foot!** Cousin Rick comes to stay: He is going to stay quite a long time because his mother is ill and can't look after him says the children's mother. **The magic faraway tree quotes** Fending off pixies selling medicine for 'bad legs' ugly eyebrows' and shit like that they home in on a goblin who is offering 'Get Well' medicine which seems to make the rest of this land largely irrelevant. **Magic faraway tree books** Lands in this book: The Land of Topsy Turvy The Land of Spells The Land of Dreams The Land of Do-As-You-Please The Land of Toys The Land of Goodies The Land of the Old Woman The Land of Magic Medicines The Land of Tempers The Land of Presents The Land of Birthdays Join my Patreon Join my 3-emails-a-year newsletter #prizes. **The Magic Faraway Tree mystery box** 177 Really how could anyone not enjoy this trippy wartime (published in 1943) tale of escape to magical places with truly interesting residents? The Faraway Tree was introduced in The Enchanted Wood which I didn't know before picking this one up. **The magic faraway tree book online** I don't know if I'm missing some crucial stuff by not having read that book first but I never felt more than the ordinary sense of needing to know what was going on that comes with reading a new-to-me book. **Magic faraway tree picture book** but not a patch on the fact that these children's mother/aunt the Responsible Party of Record for their safety blithely lets them go off for an entire day no idea where they are and when they come home and share their adventures she doesn't reach for the phone to get a shrink STAT but indulgently laughs and allows them to do it again! (After they finish all their chores of course. **The magic faraway tree total environment** So while this is a fun little fantasy of life in worlds where people are called Moon-Face and Dame Washalot and trees grow the fruits that will best suit your needs at that moment to a kid to a grandpa it's an astoundingly different and really quite uneasy-making fantasy. **The Magic Faraway Tree childrens** I didn't love it but I didn't expect to; in fact I liked it quite a bit more than I expected to and that is a wonderful thing for a reader in his seventh decade of reading. **The Magic**

Faraway Tree childrens my 177 Jo Bessie and Fanny take their cousin Rick on an adventure he'll never forget to the magic Faraway Tree where he meets Moon-Face Silky the fairy and Saucepan Man and visits all the different lands at the top of the Faraway Tree. **The magic faraway tree author** Like the Land of Spells the crazy Land of Topsy-Turvy and the land of Do-As-You-Please where the children ride a runaway train! WTF? Hello? Why is Rick here at all for all these weeks? His mother is desperately sick and can't look after him: **The magic faraway tree extract** Note how book 2 has substantially more ratings than book 1 since it actually has 'Faraway Tree' in the title, **The Magic Faraway Tree kindle unlimited** In the 4 years since book 1 (1939) Enid seems to have come up with no new ideas, **The Magic Faraway Tree mystery 101** Essentially this book is a continuation of the formula from book 1.

Two of its denizens escaping and taking over Moonface and Silky's houses, **The magic faraway tree quotes** The land of tempers invokes a fire & brimstone / eternal damnation view of sin. **The Magic Faraway Tree epub.pub** Additionally it's worth noting that the children have very little by way of imagination themselves: **The magic faraway tree series in order** Offered magic wishes they squander them on things like I'd like a big chocolate cake! rather than I'd like the power to create cakes at will, **The magic faraway tree quotes** or World peace and an end to disease.

Rereading a childhood favourite can sometimes prove hazardous: **The magic faraway tree novel bookpedia** For this reason I had stayed away from my once beloved Enid Blyton for so long: **The Magic Faraway Tree childrens book review** The Faraway Tree series were particular favourites of mine however and I had been hankering to revisit them for some time, **The magic faraway tree series** I knew I was taking the risk of marring my rose-tinted memories of this series but decided to proceed regardless. **The magic faraway tree characters** It was with much relief that I found the delight and awe so often felt on early readings as soon as I opened the very first page. **Magic faraway tree picture book** 177 While I don't love this one quite as much as the first I still enjoyed revisiting this old favourite: **The magic faraway tree novel bookpedia** I still need to read the third to read to check but so far my memory is mostly correct that the events from the end of the previous are almost entirely dropped: **Kindle The Magic Faraway tree series** One of the things I find stretches belief the most is when the adult characters believe in the magical happenings but show no curiosity about them, **The magic faraway tree illustrations** Slightly annoying cousin Rick (renamed from Dick) arrives in this one: **The magic faraway tree novel bookpedia** He was less troublesome than I remembered but still a little irritating. **The Magic Faraway Tree mystery box** He is sent to stay with his family because his mother is very ill and will be for a long time: **The Magic Faraway Tree epub free** At some point during this book the children's own mother falls ill, **The Magic Faraway Tree kindle unlimited** They travel to a land that gives them a medicine for her. **The magic faraway tree address** The children observe Saucepan was always very funny when he heard things wrong -- I disagree, **The Magic Faraway Tree fantasy 5** By this point I am rolling my eyes every time he hears wrong and causes yet another disaster: **The magic faraway tree hardback book** Still in fairness I do think I found this amusing when I was younger. **The magic faraway tree book series** Also when they go the Land of Goodies the rules are odd, **The magic faraway tree moon face** They eat pieces of the marshmallow fence with no trouble but when Rick eats someone's peppermint knocker he is punished. **Magic faraway tree picture book** Why is a fence acceptable but not a knocker? A fence is just as much private property as a door knocker: **The magic faraway tree original illustrations** 177 Fanny waited a whole book for Dick and I'm happy

to report he turns up in book 2, **Enid blyton the magic faraway tree book** (this is a quote the stuff below is artistic license) So point 1, **The magic faraway tree book** Later in the book the children's mother (sister or sister-in-law to Rick's mother) falls ill, **Magic faraway tree books in order** What can be done? Saucepan Man's deafness is still a source of hilarity though. **The magic faraway tree novel** The big threat this book is from the land of tempers cheers! Celyn enjoyed me reading it to her. **The Magic Faraway Tree childrens** It's a great book for younger children - plenty to smile about. **The magic faraway tree story** And above all cheerful/upbeat if you don't think about it too hard. **The magic faraway tree author** 177 I feel quite fine and have a great feeling of self satisfaction because I reread one of the best Children's books that I've read. **Magic faraway tree picture book** Enid Blyton books don't have much depth but the author knows about storytelling. **The magic faraway tree book online** How nice it is to know the English language and come across such gems as The Faraway Tree trilogy: **The magic faraway tree book online** To summarize the Faraway Tree is a magic tree where magical beings live. **The magic faraway tree book series** Also at the top of the tree a ladder leads the climber into whatever land it is therein. **The magic faraway tree book online** Our adventurers Jo Bessie Fanny and their cousin Dick mingle with the magic folk and go up the ladder with mixed results, **The magic faraway tree hardback book** Sometimes even the benign lands are full of unlooked for dangers. **The Magic Faraway Tree kindle** All things considered I think the kids have more trouble than fun: **The magic faraway tree moon face** I've been an avid reader of Enid Blyton since I was a kid, **Magic faraway tree books in order** But I think even the Narnia books which I read later aren't superior to whatever magical themed books Enid Blyton wrote, **The magic faraway tree saucepan man** What happens in the course of the kids' adventures in the various faraway fairy realms was fun. **The Magic Faraway Tree fantasy summary**)And then then! she allows one of them to SPEND THE NIGHT in parts unknown to her! She says and shoves in in a cupboard. If anyone else gets sick might need that. Well never mind. Fuck her. We won't even mail her a bottle of this stuff. Sucks to be her.[/Rant]. Moving on. Not so much to report about book 2. or better I'd like to be a powerful sorcerer. 177 What can I say. This book is the reason I read. I feel in love immediately. I looked forward to it every afternoon. So I didn't love this one at all. Part of that's personal and part of that's critical. Let's do the personal first. I loved it. So that's my personal reason for the low score. With my critical hat. Moon Face is still creepy as frak. One the biggest plot-hole moments stems from Rick. My other gripe is Saucepan Man. This joke was wearing thin in the first book. So those are my gripes but overall it's a fun book. The illustrations are lovely this time by Georgina Hargreaves. Or Franny and Rick as the characters have been renamed. Rick's mother VERY ill. Remember this it will become important in a few sentences. Calamity! She has been in bed for a few days. Fret not! says Moonface. The Land of Magic medicines will be here . oh about now. And they all charge up the ladder. Anyway. Everyone is so pleased. I'm so pleased Aunt Polly! Rick declares. Man? I thought you said ham! How we laughed. Easy to follow. But the fun is usually a unique experience. At that time she was the best author available to me. I *****really***** want to visit the Land of Topsy-Turvy!. Which they do uncomplainingly. Which is how you know this is a novel. So why not it's only \$3.
