I say that as a guy who self published a Kindle book on trading and bummed I let a few errors slip through. **Volume profile indicator** Thank you for your hard work and obvious passion for trading[1]

But keep healthy scepticism. Gl & hf 195 pages This is a COLOR PRINT paperback. Institutions move and manipulate the markets. They work with proper precautions taken as described by him. Very well explained in an easy to read book. Very nicely written perhaps a little too verbose. Also the wicks were hard to see on the charts. Good book definitely worth reading. Highly recommended. Someone that actually follows their own teachings. Reducing risk and maximizing targets. Like Will Rogers said. This is hard to come by. Great teaching read. 195 pages Be careful with these strategies. Even the live trade examples are bad. I was not disappointed. I bought a paper and kindle version. \$7 is nothing compared with the information. And I like to carry a book every where. So I found this book. Thank you the author. If you do color version and charge . I will still buy. But it's really hard to get past the errors. Again no disrespect to the author. Consider editing and reposting. 195 pages.
