I'm reading it a second time. Also thebookoflife. Update: Working through the exercises is incredibly valuable. It is not easy work. This book could also be called A Life to Love. The two together have been life changing for me. It goes in the opposite direction too. Love this book. It is one of the best things ever to happen to me. You decide. 3. 4. The 'regret free life' exists only in songs. This is unavoidable. Self compassion is different from saying that we are innocent. We get very excited by the idea of another job. The troubling reality however is that every job has problems. Disenchantment is not a one way street. We can sometimes reverse the direction. We are capable of a second accurate look. We can perform a Monet type move around our own work. This is a great book. I wish book were that insightful and to the point. Every bit of it. I am not even young and looking for a career. I loved the tone of it and how comforting it was. It shows a new way to look at a working life. A Job to Love (The School of Life Library).
