We have the master politician and diplomat who set about developing a form of governance in which Islam could express itself in the wider social and economic circumstances in which it found itself as a result of the success of the early conquests. The Umayyads represent the fusion of Islam with Arab democratic individualism. Muawiya Restorer of the Muslim Faith by Aisha Abdurrahman Bewley (2002-05-03)

I approached this work as ambivalent or hostile to Mu'awiya. English Its a great book that talks about a sahabah that is often slandered by orientalist or shi'a historians.

Description from the publisher: Mu'awiya ibn Abi Sufyan is a crucial figure for the history of Islam and one who has either been ignored because of the lack of information on this period of history vilified for political reasons by the Shi'ites or transformed into a completely secular ruler by certain Western orientalists. When Mu'awiya became the caliph in 41/661 he put an end to a period of destructive civil war and initiated the Umayyad dynasty which lasted for roughly 90 years until it was overthrown by the Abbasids. Mu'awiya is a man who killed the Holy Prophet Muhammad's Grandson so that he can seize the Caliph position and his son was responsible for killing another grandson of the Holy Prophet Muhammad, At the very least this shows that there are two sides to every history. Indeed it is hard to imagine how the crisis would have been resolved without his success in drawing the Muslim community together again, English This book is a joke and spoon feeds lies one after the other, I strongly recommend everyone to do their research before buying this book to learn that Mu'awiya was one of the biggest ENEMIES of Islam and did nothing to help it. In Mu'awiya however sadly it is very short. English.
