I really wanted to like this novel just because the premise seemed really interesting and fun. The characters are nice but \*\*\*spoilers\*\*\* Ant does a 180 in between chapters that makes no sense, I found myself nodding laughing and crying along especially as I recognised one or two locations along the way too: Didn't annoy me by being too twee or by being ridiculously far fetched, Never going to be one of those books you remember for a very long time but definitely was just what I needed at the time, Really really enjoyed it Für andere kaufen I wasn't sure if I would enjoy this book but it didn't take me long to assure me that I would: Libby's wonderful relationship with her grandad
